WE'RE BIOTOP PROFESSIONAL

Welcome to BIOTOP PROFESSIONAL, where we are fully committed to partnering with you to support the salons, stylists, and beauty stores you serve—helping them build the businesses they aspire to, whether that's a full-service salon, a single chair, a retail space, or anything in between.

Healthy, strong, and manageable hair is the foundation of every exceptional salon service. Our treatment-focused formulas help professionals restore hair to its optimal condition, allowing color, smoothing, and styling services to perform evenly, deliver predictable results, and last longer. Beyond performance, our products elevate the in-salon experience and support business growth. Today, we are present in 25 countries, reaching thousands of salon owners, stylists, and beauty retailers through dedicated distributor partners. Our goal is to be your trusted professional partner, supporting your success and the evolving needs of your customers.

WHAT SETS US APART?

Family-owned, focused on you.

Founded by Yehoda and Liat Levy, BIOTOP PROFESSIONAL is a family-owned company and a proud member of the professional salon community. We are dedicated to supporting salon owners and hairstylists with high-performance products rooted in pure pH-balanced haircare, scientifically proven formulas, and professional expertise.

By overseeing our own manufacturing, we ensure the source and quality of every ingredient in every bottle. We also invest extensively in research and development, working closely with formulators, scientists, and leading haircare professionals to create products that combine safety, effectiveness, ease of use, and visible results—everything beauty professionals and their clients expect.

INGREDIENTS WE LOVE

Quinoa

This plant-based superfood contains all nine essential amino acids naturally found within our hair complex. It restores essential nutrients and provides intense hydration and shine.

Coconut Oil

It's vitamins and fatty acids work together to strengthen the hair and reduce breakage. Additionally, its rich content of lauric acid deeply moisturizes the hair, promoting overall health and softness.

Hydrolyzed Keratin Protein

An essential strengthening protein that helps to rebuild the hair cuticle, fortify hair strands, reduce frizz and help prevent future breakage.

Shea Butter

Deeply moisturizes, nourishes, and strengthens hair, reducing frizz and scalp irritation while promoting softness and shine.

Sunflower Seed Oil

Rich in vitamins C & E, this ultra-rich, moisturizing oil restores hair's natural luster and shine.

Almond Oil

Nourishes and moisturizes hair, promotes growth, strengthens strands, reduces dandruff, adds shine, and improves scalp health, making it an excellent choice for healthy, vibrant hair.

Chamomile Oil

Soothes, moisturizes and calms the scalp and hair cuticle, reducing the appearance of breakage and frizz. Promotes full, healthy hair growth.

Grapeseed Oil

Reduces breakage and split ends, adds shine and soothes and nourishes the scalp.

Kale

Rich in essential antioxidants and vitamins to restore strength, smoothness and overall hair vitality. Aids in cellular turnover to promote hair growth.

Macadamia Oil

Deeply nourishes, moisturizes, and strengthens hair, helping to restore elasticity, reduce frizz, and add shine.

Avocado Oil

Rich in essential fatty acids and antioxidants that easily penetrate into the hair shaft, this lightweight oil replenishes strength and moisture and fights frizz.

Chia Seed Oil

Revitalizes the scalp, stimulates hair growth, fortifies strands, and adds shine while helping to prevent dryness and split ends.

OUR UNIQUE MANUFACTURING PROCESS

100% PURIFIED WATER

Each formula is based on purified water that undergoes a specialized filtration process to remove minerals and impurities. This allows our superfoods, botanicals, natural oils, and other hair-loving ingredients to more effectively penetrate the hair, delivering their benefits as fully as possible to both the hair and scalp.

STRICTLY MONITORED pH PRODUCTION PROCESS

During production, every ingredient addition is carefully controlled to maintain a pH level between 4.5 and 5.5 – the natural pH range of human hair and scalp sebum. This helps ensure the hair is not compromised during use and that the integrity of the active ingredients is preserved throughout the entire formulation process, from start to finish.
